

MAT 479 Capstone Project

Brock Fassnacht

Visa

- Visa is a multinational financial services corporation based in Foster City, California. It facilitates electronic funds transfers primarily through Visa branded credit, debit and prepaid cards.
- Amazon, the world's largest retailer, stopped accepting Visa credit cards in certain areas of the world due to the high fees. This was resolved February as both companies reached an agreement.
- Most of the world is reopening from the Covid-19 pandemic which will increase travel and spending which directly benefits Visa.

Mcdonalds

- Mcdonald's is a multinational fast food corporations founded in 1940, and is based in San Bernardino, California. They currently have more than 38,000 locations in over 100 countries.
- For the first time in 8 years Mcdonald's expects to open more locations than it closes in the United States.
- Mcdonalds temporarily closed 850 locations in Russia during March due to the Russia - Ukraine conflict.

Pfizer

- Pfizer is an American pharmaceutical and biotechnology company founded in 1849 by two German immigrants.
- Pfizer develops and sells hundreds of drugs and treatments; most notably their COVID -19 vaccine that they developed with a German biotech company, BioNTech.
- CDC recommended in March a 4th dose for people over the age of 50. Meanwhile Covid Cases in the United States have gone down dramatically since February.

Overall Market Sentiment

- End of 2021 stocks were at record highs
- Inflation rate is about 8% which is the highest seen in 40 years
- Fed is raising interest rates for the first time since 2018
- GDP was negative in first quarter 2022
- Most stock indexes are down over 10% from their all time highs in November of 2021
